## Advice About Rock Gardens

We are glad to help with any problems at any time, and can heartily recommend "My Wild Garden" and "Taming the Wildling" by Herbert Durand, and "The Rock Garden" by Louise Beebe Wilder, as best authorities in Eastern United States.

For information as to the value for garden use of western native plants, read **Western American Alpines**, by Ira N. Gabrielson. If you would like to climb our mountains and see our lovely wildlings in their homes, but cannot do so, take a trip at second hand with Dr. Gabrielson. You will find him most delightful company, and through his appreciative eyes will be able to enjoy and estimate them at their best. Order from me. Price \$3.50.

"Rock Garden and Alpine Plants," by Henry Corroven, of Switzerland, is undoubtedly one of the best in the world, and at the new low price should be had by all. Price \$3.00. Order from me.

## Oregon Wild Flowers

**Seeds**—Seeds of many varieties can be furnished at 25c per packet. In ordering seeds, please list some substitutes that may be sent in case of shortage. Plants in this list are so rare that the supply is uncertain.

Numbers (00) indicate height by inches.

The price for a dozen is ten times the price for single plants. Half dozens are sold at dozen prices. All are packed free of charge, and post-paid.

### **Native Plants Suitable for Dry Garden in Sun unless Otherwise Stated.**

|  | Each |
|--|------|
| <b>Anemone Deltoides</b> , purest white colors for shade   | .15  |
| Lyalli, many delicate colors in shade.....   | 15   |
| Occidentalis, chalice cup, milk white flower,<br>plumy seed-head and nice ferny leaves.....        | 50   |
| Oregana, for deep shade and acid soil, white<br>with three tints. (6) .....                        | 40   |
| Pulsatilla, purple pasque flower .....   | 35   |
| <b>Achlys Triphylla</b> , Sweet after Death, not showy   | .25  |
| <b>Abronia Umbellata</b> , sand verbenia, pink creeper..   | .25  |
| <b>Aquilegia Formosa</b> , (18) Scarlet and gold colum-<br>bine .....                              | .25  |
| <b>Arabis Lyalli</b> , pink flower, best in shade.....   | .25  |
| Purpureus (6) extra nice plant, pink flower .....  | .25  |
| <b>Armeria Artica</b> , Sea Pink, deep rose.....   | .25  |
| <b>Calandrinia Umbellata</b> , for very dry situations,<br>flower a wonderful color .....          | .25  |
| <b>Calypso Borealis</b> , fairy slipper, with soil to plant<br>in .....                            | .25  |
| Bulbosa, same as above .....   | .25  |
| <b>Campanula Scouleri</b> , (4) very light blue lily<br>shaped flower .....                        | .25  |
| <b>Castilleja Mineata</b> , (6) scarlet Indian Paint Brush   | .15  |
| <b>Cleome Nemorosa</b> , (16) pink. Seeds only .....   | .15  |
| <b>Clintonia Uniflora</b> , (3) pure white Queen's Cup....   | .15  |
| <b>Dentaria Tracyii</b> , (5) Milkmaid's flower, purple<br>spotted leaves, very early bloomer..... | .15  |

|   |      |
|---|------|
| <i>Californica</i> , white with round dentate leaves  | .15  |
| <i>Macrocarpus</i> , larger form from the Siskiyou mountains .....  | 25   |
| <i>Delphinium Nudicaule</i> , (18) red.....   | .20  |
| <i>Columbianum</i> , (5) purple .....   | .15  |
| <i>Dicentra Formosa</i> , plump bleeding heart, beautiful foliage .....   | .15  |
| <i>Oregana</i> or <i>Glaucia</i> , silvery leaves and cream flowers with purple tips .....  | .50  |
| <i>Douglasia laevigata</i> , cutest alpine .....  | 1.00 |
| <i>Digitalis</i> , (4 to 6 feet) Fox Glove, many colors....   | .25  |
| <i>Dodocathalon Alpina</i> , (6) prefers moist situation  | .50  |
| <i>Hendersonii</i> , (6) a beautiful rose to crimson primulaceae, blooming very early in the spring. Good in the rock garden .....  | .15  |
| <i>Jeffreyii</i> (12) a later bloomer called Sierra Shooting Star, light pink .....   | .25  |
| <i>Epipactis Gigantea</i> , for moist shade .....   | .20  |
| <i>Erigeron Radicatus</i> , (2) deep blue or purple, free blooming .....  | .35  |
| <i>Compositus</i> Var. <i>trifidus</i> , (4) white flower....   | .35  |
| <i>Folicosus</i> var. <i>compositus</i> , (6) light blue ....   | .25  |
| <i>Salsuginosus</i> , (10) large Alpine daisy .....   | .25  |
| <i>Glaucus</i> , very dwarf, large flowered .....   | .25  |
| Species from the coast, covered with large blue flowers in autumn, similar to Michaelmas Daisy .....  | .25  |
| <b>Evening Primrose</b> , see <i>Oenothera</i>  |      |
| <b>Eriogonums</b> are fine for the rock garden. Dry situation. Seeds best as they are hard to transplant. Flowers are in clusters and dry perfectly for winter bouquets. Dry sunny sit. |      |
| <i>Compositus</i> , cream white in four to six inch clusters. Seeds only.   |      |
| <i>Douglasii</i> , yellow flower. Plant, a fine, thick, neat, gray white foliage. Seeds only.   |      |
| <i>Nudum</i> , (18) white flower on slender stem....  | .25  |
| <i>Sulphureum</i> , same but yellow .....   | .25  |
| <i>Umbellatum</i> , (6) large yellow flower.....  | .25  |
| Species variety of above, red flowers. Seeds only.  |      |
| <i>Ovalifolium</i> , (3) everblooming alpine pink....   | .50  |
| Species. Wild Pink Buckwheat, a beautiful late annual. Seeds only.  |      |
| <b>Eriophyllum</b>  |      |
| <i>Janatum</i> , green foliage, white beneath.....  | .25  |
| <i>Ceaspitocum</i> , (8) Oregon Sunshine, yellow flower, white foliage .....  | .15  |
| Species, (4) felty white foliage, Alpine.....   | .50  |
| <b>Erysimum aspernum</b> , (12) Western Wall Flower, yellow .....   | .15  |
| <b>Ferns</b>  |      |
| Very dwarf ferns suitable for rock garden. The roots should have a nice pocket of soil well protected by a large stone to conserve moisture and thus they will face full sun.           |      |
| <i>Chelianthes Gracillima</i> , (5) lace fern, dainty, clump .....  | .25  |
| <i>Cryptogramma Acrostichoides</i> , (3) parsley fern .....   | .25  |

|  |     |
|--|-----|
| Gumnogramma triangularis, (3) gold fern....  | .25 |
| Pellaea branchypteris, (6) evergreen fern,<br>like a sprig of fir .....  | .35 |
| Woodsia Oregana, (5) very dainty and fra-<br>gile. Drys down in summer, reappearing<br>in early spring .....   | .15 |
| Lomaria Spicant, the Deer fern for moist<br>shade .....  | .25 |
| Pellaea densa, the daintiest and also the<br>hardiest dwarf fern .....   | .25 |
| Filix-fragilis, a delicate little beauty, a bit<br>larger than Woodsia Oregana .....   | .15 |
| Polypodium Occidentale, licorice fern, pre-<br>fers a mossy stone for a home.....  | .15 |
| <b>Larger Ferns</b>  |     |
| Polystichium Lonchitis, Holly Fern, a love-<br>ly evergreen fern for shade only.....   | .50 |
| Polystichum Munitum, large sword fern.....   | .25 |
| Polystichum imbricans, small sword fern for<br>dry rock garden .....   | .25 |
| Dryopteris Arguta, (18) evergreen shield<br>fern .....   | .25 |
| Asplenium felix-foemina, lady fern, moist<br>shade. Each .....   | .25 |
| Woodwardia Radicans, great chain fern, very<br>large, requires moisture and shade.<br>Each .....   | .50 |
| We have many other nice ferns not yet classified.<br>Write us your wants.  |     |
| <b>Fragaria</b> , wild strawberry from beach, glossy<br>leaves, red runners, nice berries.....   | .15 |
| <b>Wood strawberry</b> , large flowers.....  | .15 |
| <b>Gentiana Affinis</b> , a very nice little gentian with<br>very dark blue flower, freely borne, moist<br>soil .....                                    | .35 |
| Species, probably variety of above. Large,<br>free-flowering, for dryer soil. As many as<br>eight large striped upturned bells open at<br>one time ..... | .50 |
| <b>Gilia pungens</b> , white flower opening at night.....  | .50 |
| Aggregata (6-18), scarlet flower, nice plant,<br>free flowering .....  | .15 |
| <b>Goodyera Menziesii</b> , mottled green and white<br>leaves, shade .....   | .15 |
| <b>Gormania Watsoni</b> or obtusatum (6) white flower,<br>a plant very nearly related to the Sedums<br>and as good for dry or moist rock work....        | .25 |
| Rhodiola, or laxa, red flowered. Plant very<br>nice .....  | .35 |
| <b>Hesperochiron pumilus</b> , a tiny white-flowered<br>damp-lover. Blooms very early.....   | .25 |
| <b>Heuchera micrantha</b> (12), spray of white flowers,<br>begonia-like leaves which color nicely.....   | .25 |
| Gabella, green leaves, good for dry rock<br>work .....   | .25 |
| <b>Irises</b> —Our natives are fine but not easy to<br>grow. Seeds of all.   |     |
| Bracteata (8), white to yellow; very fine<br>shaped large flowers, dwarf plant.....  | .25 |
| Douglasiana, in most beautiful shades of blue<br>and lavender. One of the loveliest irises we<br>have ever seen.....                                     | .25 |

|   | Each |
|---|------|
| Albright, just as yellow as Innominata and more dwarf .....   | 1.00 |
| Chrysophylla, a very dwarf white, fine in rock garden .....   | .25  |
| Innominata—This is an improvement on the lovely Bracteata, a deeper yellow and equally fine shaped flower.....  | 1.00 |
| Macrosiphon, yellow with deep green foliage .....   | .35  |
| Missouriensis (16), blue flower.....  | .25  |
| Tenax (8), many lovely colors in mixture.....   | .35  |
| Tenax, same in deep purple. This is our best native iris; flowers similar to Siberian but more freely borne; plant more dwarf.....  | .25  |
| Species, very narrow foliage.....   | .50  |
| Californica, variety of colors.....   | .25  |
| <b>Leucocrinum montanum</b> , pure white sand lily, clump .....   | .40  |
| <b>Lewisia</b> —The evergreen varieties are often listed as Oreobroma and include all except rediviva and oppositifolia. These are our very best rock garden plants requiring good drainage and full sun, but not south exposure in California. Roots should have good protection under large rocks, and no irrigation. Coarse sand or broken rocks around the plant on surface to prevent damping off. |      |
| Eastwoodiana, a rare new variety with pure white flower resembling Columbianum in foliage and flower.....   | .50  |
| Columbianum, has narrow leaves and small flowers. This bloomed the whole summer and fall in my rock garden. Flower white .....  | .25  |
| Columbianum var. rosea. Pink .....  | .25  |
| Cotyledon, slender leaved rosette and white flower, veined pink .....   | .25  |
| Finchii, one of the best. Have counted over five hundred florlets from one plant in a season striped pink flowers.....  | .50  |
| Nye's new variety of Finchii, still larger with a clear pink flower .....   | .50  |
| Hecknerii, a fine new one with saw-edged leaves; flower pink striped with white.....  | .35  |
| Howellii, leaves of the rosettes, ruffled and crested, flower deep rose striped with white .....  | .35  |
| Ingramii, a variety of Howellii, equally good .....   | .35  |
| Leeana, a narrow-leaved evergreen with a spray of fine magenta flowers.....   | .25  |
| Tweedyii, largest and one of the loveliest. Full sun, best drainage around crown.   |      |
| Very long blooming, large.....  | 1.00 |
| Medium .75 Small .50  |      |
| Redviva (3) Bitter root; state flower of Montana. This is a fine large showy flowered dwarf, hardy in any section of the U. S. A. ....  | .15  |
| Oppositifolia (5), similar to rediviva, with smaller white flower. Both die down in summer .....  | .15  |
| <b>New Varieties</b> —The following are offered as new, as far as we know:  |      |

|  |      |
|--|------|
| Richeyii, a new dwarf variety of oppositifolia. Flower stems short and more free flowering. Usually pure white; likes moisture until blooming time.....            | .25  |
| Mariana, is of the evergreen rosettes variety, foliage dark in color, flower yellow and white with some pink, very striped. It is almost everblooming with me..... | .50  |
| Crenuata, a dwarf variety of Howellii with a fine ruffling all along the leaf and the same light creamy pink to white flowers as the following.....                | .50  |
| Howellii, new variation of our own finding, white to cream-pink flowers on long stem; foliage very ruffled. A very large handsome plant .....                      | .50  |
| Lewisia Species, new ones not quite the same as any above but differing too little for names .....   | .25  |
| Lewisia Species, fine distinct new ones not yet named. While they are in stock.....  | 1.00 |
| <b>Linum</b> , Lewisii, wild flax with deeper blue flower than L. Perrene (20) .....   | .25  |
| <b>Linnaea</b> Borealis var. Americana, Twin Flower. Vine .....  | .15  |
| <b>Lupinus</b> Lyallii (4), the tiny gray-leaved Alpine which blooms the whole season. Seed is best .....  | .35  |
| Minimus (9), very free blooming.....   | .15  |
| Ornatus (12), silver-leaved lupine.....  | .35  |
| Tall varieties in mixture; seeds only.   |      |
| <b>Lutkea</b> pectinata (4), make a lovely green mat in a moist spot in rocks. Spreads quickly .....   | .35  |
| <b>Monardella</b> villosa, a free flowering mint (7).....  | .25  |
| <b>Micromeria</b> Douglasii, vine with scented leaves; nice in the rock garden.....  | .15  |
| <b>Mertensia</b> laevigata, a large blue bell.....   | .35  |
| <b>Montia</b> parvifolia, dainty white flower, always in bloom .....   | .15  |
| <b>Oenotheria</b> tricocalyx, Desert Primrose; opens pure white and changes to pink. Sandy alkali soil, well drained in sun.....                                   | .30  |
| Sun cups; day blooming; yellow.....  | .15  |
| Hookeri, tall, large flowered yellow Evening Primrose .....  | .25  |
| <b>Paeonia</b> Brownii, (8) our only native peonia and a dwarf adapted to a rock garden; large red flower .....  | .50  |
| <b>Penstemon</b> Azureus (8), a lovely flower freely borne .....   | .35  |
| Cardweillii (6), shrubby creeper, very free blooming, flower brightest blue.....   | .50  |
| Glaber (8), large flowers of beautiful blue, pink throat; free blooming Alpine.....  | .50  |
| Laetus (12), rather dark blue, nice in border as well as in rock garden.....   | .15  |
| Menziesii (4), shrubby creeper, blue.....  | .35  |
| Rupicola (6), gray-leaved shrubby creeper; rose crimson flower; very nice.....   | .35  |
| Centranthifoilius (24), Scarlet Bugler.....  | .50  |
| Davidsonii, small form of Menziesii.....   | .50  |
| Fruticosus (8), pink. A lovely one from E. Washington. Fine in the sun.....  | .50  |

|   |      |
|---|------|
| Blue Bender, fine free blooming blue variety<br>(14) .....  | .35  |
| Procerus, same as confertus, variety caeruleo-purpureus; blue flower on upright stems (12) .....  | .25  |
| Tolmei (4), blue-flowered dwarf, forms mats covered with flowers.....   | .50  |
| Roezli (12), bright blue flower on upright stems. For dry rocks.....  | .25  |
| Penstemon Species (35), a fine tall plant, nearly all flowers, of a beautiful blue.....   | .25  |
| <b>Phlox</b> Adsurgens (5), evergreen creeper with fine pink flowers .....  | .25  |
| Speciosum (8), upright grower with nice flowers .....   | .35  |
| Douglasii, flat mats covered with flowers of pink, lavender or light blue.....  | .50  |
| Hoodi, similar with white flowers.....  | .50  |
| <b>Polemonium</b> Carneum (19), peach pink, very pretty .....   | .35  |
| Occidentale (18), blue blue.....  | .35  |
| Species (6), mumile or similar blue .....   | .35  |
| <b>Ranunculus</b> glaberrimus (4), sagebrush buttercup, brightest yellow flower on very dwarf plant .....   | .25  |
| Californicus (12), very early bloomer.....  | .15  |
| Occidentalis, deeper in color, less weedy (6) .....   | .15  |
| <b>Romanzoffia</b> Californica (6), for mossy moist rocks .....   | .15  |
| <b>Saxifraga</b> Mertensiana (6), moist shade preferred.<br>White .....   | .15  |
| Tolmei (2), makes a lovely green mat with lots of small white flowers. Alpine and requires moisture and full sun. Found at the foot of glaciers. Seed only. |      |
| <b>Sedum</b> divergens, forms flat mats; very nice; annual .....  | .25  |
| Jepsonii (8), for dry rock work; white flower large .....   | .25  |
| Purdyii (2), dense rosettes spreading by red thread-like runners. Bright yellow flowers .....   | .25  |
| Spathulifolium, whitish rosettes inclined to color nicely. Yellow flower (3). Good in sun .....   | .15  |
| Nevadaensis (5), a nice grey one.....   | .35  |
| Brevitifolium (1), tiniest grey foliage.....  | .35  |
| Oreganum, flat green rosettes from Pacific coast of N. Oregon .....   | .25  |
| Oreganum from mountains of interior Oregon .....  | .25  |
| Oreganum from Washington state.....   | .25  |
| Woodii, bright yellow flower.....   | .25  |
| Sedum species, six distinct varieties not listed above, without names, for.....   | 1.00 |
| <b>Silene</b> Ingramii, deep rose.....  | .35  |
| Hookeri (3), fringed pink, a nice long-blooming plant, considered by some good judges to be our best rock garden native. Salmon pink .....                  | .25  |
| White variety of above.....   | .35  |
| Californica, scarlet flowers in late summer to frost .....  | .35  |

|  |     |
|--|-----|
| <b>Sisyrinchium</b> , bellum. Blue-eyed grass.....   | .15 |
| Iridifolium, cream (24).....   | .50 |
| Californicum, yellow .....   | .25 |
| <b>THERE</b>   |     |
| Grandiflorum (10), a lovely flower of an un-<br>describable shade between rose and purple .....  | .25 |
| <b>Spragua umbellata</b> , pussy-paws, grows flat on the<br>ground, flowers white to red, watermelon<br>scented .....  | .15 |
| Multicaps, many headed or rosetted. Turns<br>a nice reddish color.....   | .25 |
| <b>Synthyris rotundifolia</b> (3), Hope o'Spring, Sleigh-<br>bell, or Spring Queen, all names of a well-<br>loved little blue flower which comes first<br>of all ..... | .15 |
| Reniformis (6), more showy light blue flower.<br>Both plants very nice and like shade.....   | .35 |
| Sweetseri, var. of rotundifolia with long<br>leaves and deep blue flower.....  | .35 |
| <b>Talinum spinescens</b> , very dwarf plant for dry<br>rock garden in sun. Flowers freely borne<br>and very dainty pink .....   | .35 |
| <b>Tellima odorata</b> , (12) large begonia-like leaves....  | .15 |
| <b>Tiarella unifoliata</b> , spray of tiny white flowers,<br>prefers moist shade .....   | .15 |
| <b>Trientalis latifolia</b> , pink star flower, a tiny pri-<br>mula .....  | .15 |
| <b>Viola adunca</b> , blue, very long blooming.....  | .15 |
| Blanda, tiny white.....  | .15 |
| Brooksii, yellow, dry rock garden.....   | .25 |
| Chrysantha or Douglasii, deep yellow.....  | .25 |
| Cuneata, one of the cutest violets. White<br>with blue eyes and back.....  | .25 |
| Hallii, sweet-scented purple and cream. Our<br>finest native violet.....   | .25 |
| Palustris, pink and lilac, for wet meadow.....   | .25 |
| Pedunculata, Yellow Pansy, a very fine deep<br>color .....   | .25 |
| Nuttallii, Downy Johnny Jump-up.....   | .15 |
| Praemorsa, similar to above, but a paler<br>color and less free-blooming.....  | .25 |
| Occidentalis, long-stemmed white, for water<br>margin only .....   | .25 |
| Glabella, yellow .....   | .15 |
| Lobata, yellow .....   | .25 |
| Sarmentosa, creeping, yellow.....  | .15 |
| Sheltonii, cut-leaved, yellow.....   | .15 |
| Trinervata, a rare lavender variety from<br>Eastern Washington .....   | .35 |
| <b>Xerophyllum tenax</b> , Indian Basket Grass, Squaw<br>lily, Elk grass, the Eremurus of our high<br>mountains. Rather hard to establish, but<br>nice to have.....    | .50 |
| <b>Zauschneria Californica</b> , for fall delivery.....  | .25 |

#### NATIVE BULB PRICE LIST

Bulbs of all kinds are best planted in the fall. The small bulbs can be supplied by Sept. 1, and the larger lilies by Oct. 15 or sooner.

**Lillium Washingtonianum**, a very fine white to pink lily. There are many variations of this lovely lily and the most common is called Mt. Hood lily. We can supply this

|  |              |
|--|--------------|
| and the larger form called Washingtonianum Purpureum. Give them very excellent drainage .....  | .50          |
| Smaller bulbs .....  | .30          |
| Washingtonianum minor. Shasta lily, similar to above but with smaller bulbs and slender stems. Price, each.....                                      | .30, .50 .75 |
| Rubescens, the Redwood lily, white to purple, very fragrant .....  | .40          |
| Kelloggii, pink. Good.....   | .75          |
| Humboldtii, a splendid yellow lily; prefers well drained clay soil.....  | .60          |
| Humboldti magnificum, even better; spotted with red .....  | .75          |
| Columbiana, a nice small yellow lily.....  | .30          |
| Roezlili, crimson, stem slender, leaves crowded; wet soil .....  | .50          |
| Roezlili, orange, similar to above.....  | .50          |
| Pardalinum, closely related to the latter, but really finer. Stem taller, leaves larger and darker color .....                                       | .40          |
| Pariyi, a very nice yellow lily, requires moist soil; rare .....   | .50          |
| Bolanderi, a small deep red lily suitable for the rock garden .....  | .75          |
| Occidentale, extremely rare red lily; moist location .....   | 1.00         |
| <b>Seeds</b> —We strive to secure all the seeds we can of these and other native lilies. Price per pkt. 25c. Prices on larger quantities on request. |              |

### BULBS FOR THE ROCK GARDEN

Dry Soil in Sun Unless Otherwise Stated

|  | Doz. |
|--|------|
| Allium Acuminatum (6), deep red .....  | .50  |
| Falcifolium (3), large flower, bright red.....   | .50  |
| Mixed, many kinds and colors.....  | .40  |
| <b>Brodiaea congesta</b> (16), blue flower.....  | .60  |
| Coconica (14), the firecracker flower.....   | 1.00 |
| Grandiflora (coronaria), harvest brodiaca.<br>This hardy midsummer bloomer rivals the genians for color. A wonderful blue..... | .40  |
| Lactea (12), white with green stripe.....  | .50  |
| Laxa, large blue flower.....   | .50  |
| Ixoides (6), yellow with purple stripe.....  | .75  |
| <b>Camassia Esculenta</b> (12), light blue wild hyacinth .....   | .50  |
| Leichtini (16), deep blue hyacinth.....  | .50  |
| Leichtini alba, white hyacinth (3).....  | 1.00 |

**Calochortus** are the wild tulip of the west and are more varied and charming than the tulips of Holland. They will grow well under almost any garden conditions and are excellently well adapted to the rock garden. Care should be taken to keep them from irrigation in late summer as they are naturally dormant at that time.

|  | Doz. |
|--|------|
| <b>Calochortus Amabilis</b> , deep yellow globe tulip....  | .50  |
| Albus, white Fairy Lantern, very dainty.....               | .50  |
| Lilacinus, very dainty one without hairs, moist soil ..... | .50  |
| Howelli, white with green hairs and black eyes .....       | .60  |
| Maweanus, cat ears, pink with hairs.....                   | .50  |

|  |      |
|--|------|
| Venustus Citrinus, yellow with black eye.....  | .50  |
| Venustus El Dorado, colors varied from white<br>to deep claret red; the very best of the<br>Mariposas .....                                      | .60  |
| Nitidus, hardy Mariposa from Idaho, lavely<br>lavendar, distinct.y eyed (12-18).....   | 1.25 |

| Vesta, huge white flowers usually tinted with<br>many colors .....   | 1.00 |

**Erythroniums** are very easy to naturalize in  
woodsy conditions and are good in the bulb  
bed or the rock garden. They are a charm-  
ing the lily and often but erroneously  
called Dog Tooth Violet. Herberd Durand  
calls the spotted-leaved varieties Trout  
Lily, and John Muir calls them Fawn Lily.  
Both names are good. They are not fussy  
as to soil or situation and come readily  
from seed.

| Doz.  |      |
|---|------|
| Giganteum, cream white.....                   | .50  |
